

Hardwood Ecosystem Experiment

<http://HEEForestStudy.org>

A long-term, large-scale experimental study of forest management and its impacts on plants and animals

Job Title: Wildlife Field Technician (1-2 positions)
Agency: Purdue University – Dept. of Forestry & Natural Resources
Closing Date: March 31, 2022 or until filled
Start Date: June 16th, 2022
End Date: Flexible, but approximately July 29, 2022
Compensation: \$13.50/hour and housing*

Wildlife Field Technicians help carry out research on the effects of silvicultural treatments on the ecology of managed forests as part of the Hardwood Ecosystem Experiment (HEE). Primary duties of these position(s) are to conduct small mammal trapping (June-July) and some radio telemetry work (June-July). Field work will be conducted at Morgan-Monroe and Yellowwood State Forests near Martinsville, IN and Bloomington, IN (respectively).

Qualifications:

Required

- Demonstrated experience with small mammal trapping
- Valid driver's license with a good driving record
- Willingness to work in extreme conditions, including traversing rugged terrain through dense, thorny shrubs and working in high temperatures and high humidity

Preferred

- Experience with hand-held GPS units, maps, and compass navigation
- Experience radio telemetry tracking

Each work week will generally consist of five 8-hour days. Work will not exceed 40 hours in a week. Current students and recent B.S. graduates are encouraged to apply.

To apply, please send a resume, brief letter of interest, and list of references by mail or email to:

Charlotte Owings
HEE Project Coordinator
